## About Me

I am a final-year Computer Science and Engineering student at Green University of Bangladesh with over 6 years of tutoring experience. I possess strong communication skills, a quick learning ability, and a solid understanding of Data Structures & Algorithms (DSA) and Object-Oriented Programming (OOP). Currently, I am expanding my expertise in MERN Stack development and am eager to learn and work with content management systems (CMS). I have been recognized for my academic excellence with the Vice Chancellor's Award and the Dean's Award, and I received the Vice Chancellor's Award for the best project in the university.

## Professional Experience

- **Tutoring services, Dhaka Cantonment—Tutor**  
2021-2024  
After completing my college, I started providing tuition services. Through tutoring, I gained an understanding of how to accommodate different types of students.
- **Classical Hometex, Dhaka Trade Fair— Manager**  
January ,2019  
In the 2019 Dhaka Trade Fair, I held the position of a manager at classical hometex .I supervised a team of 12 salesmen. There I learned how to communicate with different types of people.
