About Me

I am a CSE student at Green University of Bangladesh with 6+ years of tutoring experience and a background in sales and team management. I have strong communication skills, a quick learning ability in tools and technology, and a good understanding of data structures and algorithms. Currently learning React, I'm confident in telesales and also open to back office roles.

Professional Experience

- **Classical Hometex, Dhaka Trade Fair— Manager**
January, 2019
In the 2019 Dhaka Trade Fair, I held the position of a manager at classical hometex .I supervised a team of 12 salesmen. There I learned how to communicate with different types of people.
- **Tutoring services, Dhaka Cantonment—Tutor**
2021-2024
After completing my college, I started providing tuition services. Through tutoring, I gained an understanding of how to accommodate different types of students.

Projects

- **Campus360 Solutions**
HTML, Tailwind CSS, JS, React, Node.js, Express.js, MongoDB
A web platform for managing cafeteria orders and transport tracking in universities.
- **Blood Donating System—**
C, Java (Swing); K-map, Dijkstra, DFS, Merge Sort
Desktop app to manage donors and optimize search using graph algorithms.
- **Product Service System—**
Java; Linked List, Dijkstra, DFS, Merge Sort
Java-based product management system using custom data structures and algorithms. (DFS), Merge Sort
- **File Operating System—**
Linux, Shell Scripting
Script-based file handling system for directory management and automation.
